

China Intelligence Monthly

The monthly publication from Clarkson Research that lets you know what is really happening in China today.

How fast is China's economy growing, what's going on in China's steel industry, what is China's demand for oil?

What does China import, what does it export and how much?

How does this impact upon shipping and shipbuilding in China?

Now you can find out the answer to all these questions and many more, quickly and easily, by reference to one single monthly publication.

China Intelligence Monthly provides unique one-stop access to key data on seaborne trade, shipping, shipbuilding and logistics of the world's most dynamic economy. In its familiar "at a glance" format Clarkson Research sets out detailed monthly information on Chinese seaborne imports and exports for all major commodities, with special focus on the Chinese oil and steel industries, the development of the Chinese container shipping market and a review of Chinese economic indicators.

A separate section concentrates specifically on the Chinese owned fleet and orderbook and Chinese shipbuilding. The Chinese owned fleet is analysed by ship type and owner, whilst the orderbook at each of the major Chinese shipyards is covered in detail, along with time-series illustrating trends in overall ordering and deliveries at Chinese yards.
