

# Clarkson Registers 2010

1960-2010

Industry standards for 50 years, Clarksons Registers remain a primary source of reliable fleet and ownership information for the shipping business.

*In an age of digital data, a book can still be a quicker tool of reference than a computer screen, especially when key information is carefully laid out to help the user.*

*Clarksons Registers are designed to do just that. Small enough to sit unobtrusively on a desk they can be ready to hand for all those immediate needs for ship details, leaving the computer to do those complicated searches and analyses for which it is best suited.*

*The CD which accompanies each register provides an extensive data set and functionality to search, analyse and download exactly the information you want in seconds.*

*For 50 years Clarkson's Registers have provided handy access to information that commercial shipping people need on a day to day basis. And they still maintain their reputation for the quality of their content and production.*

*(Free access to CD data available only during the year of the current register)*
