

# Guide to European Renewable Energy Resources - 3rd Edition Wind & Wave Projects

An essential reference guide if you have an interest in renewable energy projects across Europe.

This guide will provide an invaluable overview of offshore wind and wave energy projects to date; those under construction and currently being planned. Information about sites, the companies involved in development and offshore support vessels employed in the construction will be included.

This new fully updated third edition which includes new data sections, graphics and illustrations, detailing shallow water construction vessels; a products/services and suppliers section; wave and tidal projects and a detailed turbine section.

# European Renewable Energy Resources Map 2009

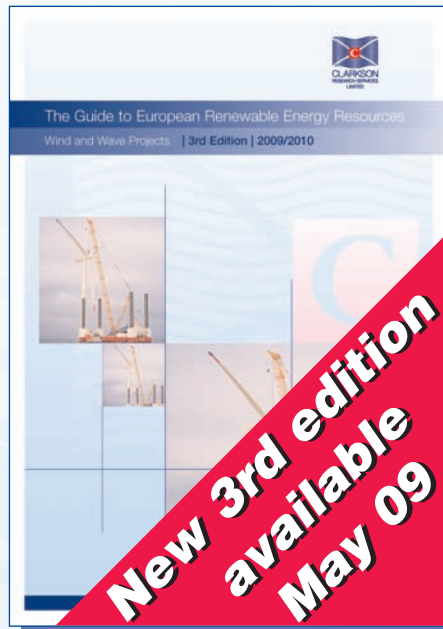

This map provides a comprehensive overview of renewable energy projects across Europe.

This map fully details the Renewable Wind, Wave and Tidal Energy Resources of the European Union and European Economic area. Using our proven cartographic experience in the production of oil and gas activity maps we have published this new map which has been researched in conjunction with the Guide to European Renewable Energy Resources..
