

Mobile Drilling Units of the World - 10th Edition

If drilling is your business then this new edition of Mobile Drilling Units of the World should always be close at hand.

It's here, the latest edition of the world's definitive register of mobile drilling units, and it's better than ever.

For those not familiar with this important reference work, it is published every two years to provide a complete illustrated record of ownership, dimensions, specifications, equipment and performance data for every rig operating worldwide. As such, it has become the standard source of reference for anyone with an interest in exploration, field development, production and workover drilling.

This, the new tenth edition, provides more information than ever, as a quick look at the contents will show. We've also incorporated a range of handy indices to help readers locate data quickly. Perhaps more importantly, we've included a complete Directory of rig owners and managers to take you straight to the heart of the business.

If drilling is your business then this new edition of Mobile Drilling Units of the World should always be close at hand.

Mobile Drilling Units of the World data can also be supplied as a database or an online subscription. See order form overleaf for details.

Contents

We have illustrated several typical pages here so that you can get an idea of the layout, which includes photographs and drawings, and the high level of data included for each unit. Typically, information covers: ownership, classification, dimensions including drafts and displacements, drilling equipment, capacities, subsea systems, cranes, mooring or jacking systems, helideck and accommodation.

- Total number of drilling units included 1020 (including 185 newbuilds)
- Jack-ups 523
- Semi-submersibles 228
- Submersibles 10
- Drillships 87
- Drilling tenders 35
- Lake / swamp barges 137
- Directory of rig owners & managers
