

Offshore Support Vessel Monthly

Offshore Support Vessel Monthly provides definitive analysis covering all aspects of the Offshore Support Vessel market, produced from the world's leading Offshore and Energy database. Split into two convenient publications, the main report provides comprehensive intelligence on all commercial aspects of the OSV market, whilst the supplement contains extensive data and statistics on the OSV fleet itself.

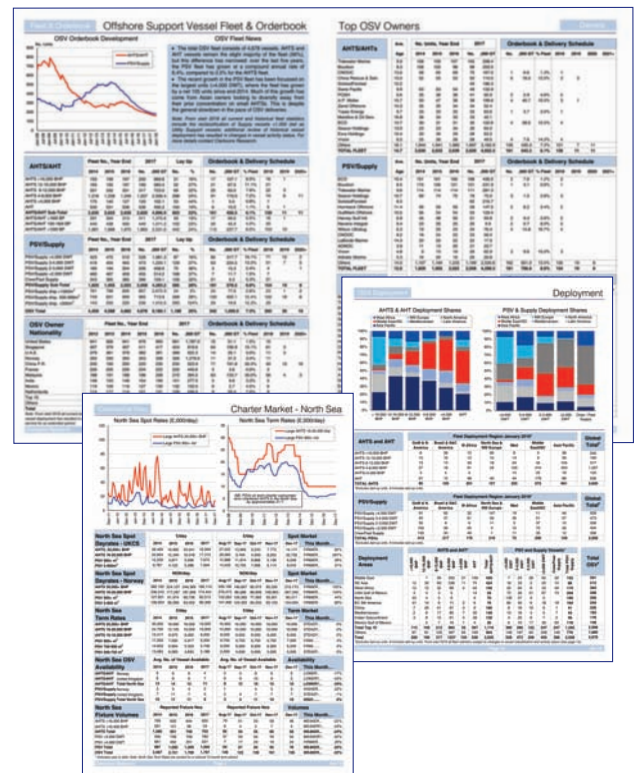

Over 5,000
Offshore
Support
Vessels

Up-to-date market analysis and commercial data for eight regional charter markets, newbuilding activity, vessel sales, the demolition market, and vessel deployment and demand, all condensed into a convenient and easy-to-use 20 page market report.

In addition to the main report, a 40-page fleet data supplement contains in-depth breakdowns of the OSV fleet including details of the entire OSV orderbook, the top builders and owners, and vessel characteristics such as Ice Class, Dynamic Positioning, Engine Model and Vessel Design, making the Offshore Support Vessel Monthly Database an indispensable tool for analysing the OSV fleet.

This market report is essential reading for all vessel owners, oil companies, yards, banks, oil services companies, equipment suppliers, class societies and flag states.

This market report is available in PDF format or can be viewed online along with the underlying data on Offshore Intelligence Network.
