# Clarksons **SeaNet**

## *The leading online ship tracking system*

Integrated with the world's most authoritative vessel database and developed by the world's largest shipbroker and commercially-led maritime research organisation.

1

Blending satellite and land-based AIS data with the unique Clarksons Research vessel characteristics database. SeaNet is the only tool you need to track global vessel movements.

2

**Key features include:**  
Multiple customised and dynamic fleets based on your own criteria.  
Filtering by vessel type, ownership and characteristics.

Email and in-app alerts based on location, vessel status and position.  
Delivery of up to date vessel reports.

3

Historical movements, port callings and notifications.  
View historical vessel voyages and port callings over a 12 month period.  
Receive movements notifications by vessel or port.

4

Delivering market connectivity wherever you are. SeaNet is available on desktop, iPad and iPhone.

Linked seamlessly to Clarksons Research's market-leading online intelligence services including Shipping Intelligence Network and World Fleet Register.
