

Tugs of the World - 5th Edition

If you need access to information on the world's fleet of tugs, then this register will provide an essential guide.

It's here, the latest edition of the Tugs of the World register, and it's better than ever.

For those not familiar with this important reference work, it is published every two years to provide a complete illustrated record of ownership, dimensions, specifications, equipment and performance data for tugs operating worldwide.

This new fifth edition provides information on coastal tugs, harbour tugs, anchor handling tugs, escort tugs, firefighting tugs, ocean-going tugs and salvage tugs. We have also improved the book's comprehensive index sections to make access to data on every one of the 6,060 vessels even quicker. Also included is a Directory of tug owners and subsidiaries listing some 1,314 contact addresses, plus a new section containing statistical reports.

Indices

- Index of all tugs by name in alphabetical order
- Index of all tugs by bhp
- Index of tugs by type
- Index of tugs by home port name
- Index of owners/managers with tug fleet lists.

Tugs of the World data can also be supplied as a database or an online subscription. See order form overleaf for details.
